

**CONSTRUCTION TANK SERVICES PROVIDES THE EXPERIENCED CRAFTSMEN AND QUALITY THAT EVERY TANK PROJECT MUST HAVE TO BE SUCCESSFUL.**

Today's tank services business requires that a tank services team provides commitment and understanding of our client needs in order to translate that into the implementation of the project objectives. Our supervision has gained recognition throughout the tank services industry in delivering projects on time and within budget.

**Our Services**

Construction Tank Services combines the best in tank construction as well as fabrication to respond to your most demanding projects. We approach all projects from the standpoint of safety

first. By planning for safety at the beginning, the results bear themselves out by safe completion of the project. We provide the following cost-effective solutions for your tank service projects:

- New Above Ground Field Erected Storage Tanks per API-620/650
- Tank Maintenance and Repairs per API-653
- Cone Roof, Dome and Structure Replacements
- Floating Roof Installations/Repairs
- Floating Roof Seals
- Secondary Containment Tank Bottoms
- EPC Turnkey Projects

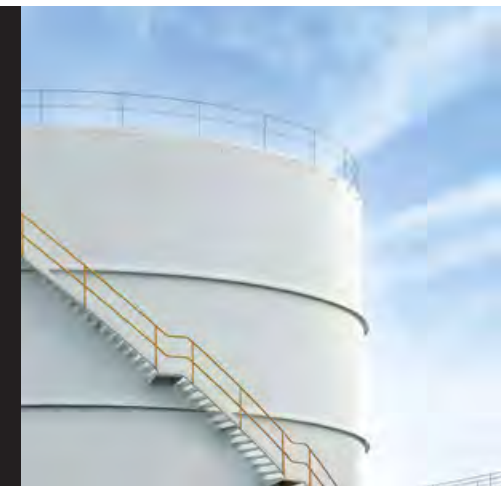

We bring a long history of partnerships with the finest companies in the business. We continually seek to develop long-term client relationships that will ensure that the success of our clients and our own success go hand-in-hand.

**Quality Performance**

Quality is built into all of our work. Starting with expert craftsmen, we strive to maximize quality and minimize defects in every task we perform. When choosing, Construction Tank Services, you have brought the finest collection of personnel available to your project. Our people are results-oriented and maintain a commitment to quality that

**“OUR SUPERVISION HAS GAINED RECOGNITION THROUGHOUT THE TANK SERVICES INDUSTRY IN DELIVERING PROJECTS ON TIME AND WITHIN BUDGET.”**

*(Quality Performance, continued)*

exceeds anything available anywhere. The highlights of our quality program include:

- Partnering with you regarding our commitment to meet or exceed the requirements of project quality
- Providing high quality adherence to training and detailed welding procedures
- Monitoring, enforcement and ongoing evaluation of project quality
- Providing a complete Q.C. documentation package on each project

**Proven Results**

Our goal on all projects is to complete them in a safe and environmentally sound manner. In addition, our projects are completed on schedule, and within budget. This exemplifies the experience, expertise and dedication that our management team provides for our clients.
