

WILLBROS DOWNSTREAM TANK SERVICES PROVIDES THE EXPERIENCED PERSONNEL AND QUALITY THAT EVERY TANK PROJECT MUST HAVE TO BE SUCCESSFUL.

Today's tank services business requires that a tank services team provides commitment and understanding of our client needs in order to translate that into the implementation of the project objectives.

Our Services

Willbros Downstream Tank Services combines the best in tank construction techniques as well as fabrication to respond to your most demanding projects. Safety is not only a top priority, but a management commitment. Through our safety pre-planning which occurs at the beginning of the work, the results bear themselves out by safe completion

of the project. We provide the following cost-effective solutions for your tank service projects:

- New Above Ground Field Erected Storage Tanks per API-620/650
- Tank Maintenance and Repairs per API-653
- Cone Roof, Dome and Structure Replacements
- Floating Roof Installations/Repairs
- Floating Roof Seals
- Secondary Containment Tank Bottoms
- EPC Turnkey Projects

Our customers appreciate the consistency we bring to our projects. Our partnerships cut across ownership lines with the best operators in the business. We pledge to develop long-term client relationships that will ensure that the success of our clients and our own success go hand-in-hand.

Quality Performance

High expectations are the norm for our quality programs. Our people strive to maximize quality and minimize defects in

“WILLBROS DOWNSTREAM TANK SERVICES COMBINES THE BEST IN TANK CONSTRUCTION TECHNIQUES ... TO RESPOND TO YOUR MOST DEMANDING PROJECTS.”

(Quality Performance, continued)

every task we perform. When choosing Willbros Downstream Tank Services, you are expecting the best and we deliver. The highlights of our quality program include:

- Determining your expectations for our performance and designing quality steps to at least meet and often exceed your specifications
- Providing high quality adherence to training and detailed welding procedures
- Monitoring, enforcement and ongoing evaluation of project quality
- Providing a complete Q.C. documentation package on each project

Proven Results

We strive for no incidents. The vast majority of times, we succeed. The goal of all projects is to complete them in a safe and environmentally sound manner. We also plan to complete all of our projects on schedule, and within budget. This exemplifies the experience, expertise and dedication that our management team provides for our clients.
